Viking Link Charging Methodology Consultation

Dear Market Participants,

National Grid Viking Link Limited (NGVLL) is proposing amendments to the Charging Methodology for the Viking Link 1400MW HVDC Interconnector, which connects the British and Danish electricity transmission systems.

This consultation opens on the date of this letter and will close at 17:00 GMT on 21st November 2025.

Charging Methodology amendments:

The proposed modifications to the Charging Methodology are:

1. Removal of any pre-Interconnector operation wording.
2. Change of reference of NGESO (National Grid ESO) to NESO (National Energy System Operator).
3. Updated email address for customer queries.
4. Updated postal address.
5. Insertion of website link for planned Viking Link outages.

Consultation documents:

This consultation includes a tracked change version of the proposed modifications for Charging Methodology Statement which can be obtained on the NGVLL website, as follows:
<https://www.viking-link.com/consultations>

Consultation responses:

NGVLL would like to invite feedback from Customers and Market Parties on the above Charging Methodology amendments.

The latest date for responses to this consultation will be 17:00 GMT on 21st November 2025. All responses should be titled “**Response to Viking Link Charging Methodology consultation 2025**” and are to be submitted via email to Interconnectors.CustomerEnquiries@nationalgrid.com

When responding please state your contact details and whether you are responding as an individual company or representing the views of an association. All responses will be included within our submission to Ofgem.

Please note that in parallel with this consultation NGVLL and Energinet are consulting on amendments to the Viking Link Access Rules, documents for which can also be obtained on the above Viking Link website.

If you have any questions in relation to any of the above, please contact:

Email: Interconnectors.CustomerEnquiries@nationalgrid.com

Yours faithfully,

Sally Lewis
